Plates Puzzle Activity

Before you begin this activity read the information located at:

World Map of Volcanoes, Earthquakes, Impact Craters, and Plate Tectonics, http://pubs.usgs.gov/pdf/planet.pdf

Plate Boundaries, http://scign.jpl.nasa.gov/learn/plate4.htm

You and your team members will reconstruct the surface of the Earth by connecting the pieces of the plate puzzle.

- When you are finished, check out the completed puzzle with your instructor to receive credit.
- Be sure to put **ALL** of the plate puzzle pieces back in the bag!
- Answer all of the questions below.

What are the 3 types of plate boundaries?

Questions

1.

2. Provide a specific example, **including the names of the specific plates**, between which each type can be found.
